-

This listing is for a well-established niche 7-year-old high grossing Holistic and Biological Dental practice located in Costa Rica's medical tourism district, 'the Beverly Hills of Costa Rica' at the CIMA International Hospital and Avenida Escazu. Long term highly trained staff wants to stay on, owners are motivated sellers looking to continue helping both local, expat and international patients achieve minimally invasive biological dentistry.

-

The established turnkey dental practice has been in business for over 7 years and has a faithful patient base of consciously minded followers. The location is located in the Avenida Medica medical complex, which is also currently being added to with the addition of two new medical tower buildings to complement the already pre-existing current towers, bringing the possibility now for expansion as well.

-

As Costa Rican BioDental is already a dental innovation industry leader, this is a great opportunity for a medical group, private equity firm or Conscious Investor looking to start immediately earning and increasing monthly cash flow and general revenue quickly and easily.

-

Owners are non-dentist practitioners, passionate about advocating for mercury safe and metal-free biological dentistry, treating the soul as well as the physical and mental dental health diseases, anxieties, conditions and disorders, and being a leader in first-class holistic and biological dental medicine in Costa Rica.

-

Current owners also want to be fully invested stakeholders and help to orchestrate actionable and quantifiable Facebook Ads Manager results to immediately boost and scale up initial earned cash flow and new business for the clinics 8th year new growth investment strategy.
